

Nature & Super-Nature?

?

Knock, Knock.  
Who or What is Outside?

"God"/Divine/Spirit?

Here, There, Everywhere

Everything

Existence

Nature

Homo Sapiens

Universe

Material (incl. brain-consciousness)

Seen and Unseen (Discovered/Undiscovered)

Known and Unknown (Discovered/Undiscovered)

The  
ALL  
BOX

If We Name Nature/Everything  
"God" (YHVH/Allah/Brahma/Tao)  
is there a Not-God? An  
"outside," above or beyond?

And, Why Give the ALL a Name  
at all. . . especially a Name  
invented by a Super-Nature  
tradition?

If one posits Pan-theism, then  
what? Worship the Universe?  
Pray to Existence?  
Is Science then Religion?  
Then, Why Religion?
